Editor in Chief

Dr S.K Gupta
Director Editor

Dear readers,

Wish you a very Happy New Year

I thank **Dr Annil Mahajan** and **Dr Sudhaa Sharma** for giving me an opportunity and believing in my capabilities to serve this prestigious journal as its Editor in Chief.

I am fortunate to inherit this responsibility from **Dr Annil Mahajan** and **Dr Sudhaa Sharma** who have taken care of this journal for a long time and elevated this journal to a great level of quality and content. **Dr. Mahajan** and **Dr Sudhaa** deserve great appreciation from one and all, and on behalf of all the members of this journal. We thank them for their great contribution and service to promote medical journalism.

I hope to take this journal along the path they have paved so well to the heights they have dreamed and will put my best efforts to carry the theme **"Together We Promote Academics"**. Our team is young as well as experienced and has been chosen from all fields of medicine. They are able researchers, academia and clinicians. The Editorial Board will be proactive and will strive to promote quality research publications through this journal. I look forward to the same whole hearted support from all editorial members.

My first priority will be to improve correspondence, expansion of information and to increase indexing to come up to the expectation of Authors and to create awareness among medical fraternity to avoid unethical publication practises. We know that learning does not stop and it is important to equip oneself with the latest through scientific medium.

"The future is bright and waiting"

With this note I conclude with a sense of satisfaction and security as **Dr Mahajan** and **Dr Sudhaa** are still a backbone of **JK Science** as **Editors in General**.

Dr. Vishal R. Tandon
